Biltmore™ AR

LIMITED LIFETIME ARCHITECTURAL SHINGLES

Colour featured is Biltmore™ AR Driftwood

Do you appreciate beautiful options? Then look no further than the Biltmore™ AR, CRC's most popular shingle among contractors and discerning homeowners alike. Biltmore™ AR shingles add architectural interest that boosts your home's curb appeal with their dimensional profile and deep shadow bands which mimic the look of wood shake construction to create a high-end designer look for your home, all at an affordable cost.

Choose from a huge array of colours to coordinate perfectly with your home's style; whether rustic or urban, traditional or modern. Even if you live in a maritime climate or area of high humidity, you can enjoy having a gorgeously coloured roof free from streaks and discoloration.

Biltmore™ AR premium architectural laminated shingles come in CRC's special Advantage size. They're bigger and heavier than most competitors' products of comparable quality. Constructed with one of the heaviest mats in the industry for their class, Biltmore™ AR is engineered to withstand the elements for years, making them among the most durable shingles you can buy.

When you choose Biltmore™ AR, your new roof will keep on looking as great as it performs.

- Built-in algae-resistant granules
- 15-Year CRC Iron Clad Protection¹
- Limited Lifetime Warranty¹
- Includes up to 110 mph (177 km/h) Limited Wind Warranty¹
- Optional Limited High Wind Warranty Upgrade to 130 mph (210 km/h) available^{1,2}

¹See Limited Warranty for complete terms, conditions, restrictions and application requirements.

²High Wind Application is required.

Biltmore™ HD is the latest offering from CRC. These shingles are proving to be a huge hit with homeowners because of their high-definition (HD) profile and the breathtaking colour blends available in the Nature's Accents Collection.

Building on the strengths of the Biltmore™ AR, shingles in CRC's new HD line take high definition to soaring new heights. Their shake-like appearance provides more contrast than ever before. Greater nuance. Deeper profile.

Like Biltmore™ AR, these premium architectural laminated shingles come in CRC's special Advantage size. How they differ is in the profile and their colour blends. To get the full story on the Nature's Accents series of colours, please see pages 8 and 9 of this brochure. When it comes to curb appeal, a new roof of Biltmore™ HD shingles will make a striking fashion statement in any neighbourhood.

*Stand out or blend in.
That beautiful choice is yours with
Biltmore™ HD in Nature's Accents.*

Biltmore™ HD ∞ Nature's Accents Collection

LIMITED LIFETIME ARCHITECTURAL SHINGLES

Biltmore™ HD shingles are available in a special collection called Nature's Accents. These stunning colour blends were inspired by North America's landscapes, climates and national parks.

People who have chosen this latest offering from CRC have told us their homes have become the talk of the neighbourhood! Everyone wants to know what kind of shingles these are, because they're so unusually beautiful.

Pacific Rim is not for the faint of heart. But, if you're the adventurous type who dares to be different and craves excitement, this all-natural colour blend was made with you in mind. It's bold, dramatic and powerful with unexpected splashes of colour contrasting on a darker background.

Biscayne is inspired by the windswept, weathered colours of the beach. This colour blend is striking enough for the most elegant home yet subtle enough for more casual surroundings, too. If your style is easy, breezy and comfy, you'll love its low-key, understated simplicity and beauty.

Glacier is a gorgeous medley of blues and greys that will work in any climate but is especially well suited to northern areas where natural sunlight is bluer than in the South. It's equally at home in coastal areas or inland lakes.

Appalachian draws on the hues of rock, sky and water but its muted tones are completely in tune with the time-worn appearance of its namesake's older mountain range. If you want your home to blend into its natural surroundings, this is your natural choice.

Sedona is a study in contrasts with rich, earthy colour variations that recall the natural striping of ancient rock. Its warm tones are a perfect complement to the character of natural sunlight in the Southwest but also work well on a rustic log cabin or colonial-style brick home.

CRC's PRO4 Roofing System is Roofing Excellence!

Shingles alone are sometimes not enough to protect your home. CRC has developed a superior multi-layered roofing system incorporating our industry-leading products.

1. Eave Protection

GoldShield, ArmourGard, or StormTamer™ Ice & Water Protectors

CRC's Ice & Water Protectors provide a second line of defense against water penetration due to ice dams or wind-driven rain and the costly damage it can cause. This product is also strongly recommended for sealing around vents, low pitch areas, ridges, hips, rake edges, chimneys, dormers, vent stacks, and skylights.

2. Underlayment

RoofGard-Cool Grey Underlayment

Use our innovative RoofGard-Cool Grey synthetic underlayment for total deck protection.

3. Roof Starters

Leading Edge Plus Starter Strips

Fast, easy and convenient. CRC's Starter Strips are already cut to size saving valuable time during the installation of the first course of shingles. Compatible with all existing CRC Shingles, Leading Edge Plus includes a sealant strip at the bottom edge allowing for a tight seal.

The Biltmore™ Collection

All the shingles in this Collection are manufactured with the industry's most advanced technology and chosen by homeowners like you, who demand the best in quality, durability, performance and value. Along with your choice of shingle from the Biltmore™ AR Collection, CRC's highly recommended PRO4 Roofing System includes these fine accessory products:

4. Ridge Cap Shingles

Hip & Ridge Plus Cap Shingles or Ultra HP™ High Profile Ridge Cap Shingles

Ridge cap shingles are required where roof planes meet, and provide additional protection along these high stress areas of the roof, enhancing your home's aesthetic appeal by accentuating the roofline.

Design your own roof with **ROOFViewer™**

Start by visiting our website at www.canroof.com and try our exclusive **RoofViewer™ Interactive Shingle Selector Tool**. You can select a style of home and accessorize it with different colours of roof and trim or even upload a picture of your actual house!

Once you've narrowed down your choices, ask your roofing professional or CRC Sales Representative for actual samples of the shingles you're considering. Printing processes are close, but nothing compares to the real thing and colours on the computer are even more prone to variation.

Treat the shingle samples as you would paint chips and view them in different lighting conditions at different times of day. If you're going to select new trim or siding, take samples of those outdoors, and see how all the elements work together.

Choosing the right colour is the most difficult decision for most homeowners. A new roof is a significant investment and you'll have to live with your colour choice for a very long time. CRC offers you many beautiful colour palettes, so take your time to find the one that's right for you and your home. You'll enjoy the results for years to come.
